

# Feature Update February 2023

## Enhancements:

- Numerous backend speed enhancements to reports.
- Added the open action item report to the director management page.
- Added the action log report to the director management page.
- UI improvements for the action log reports.
- Added a company column for director level action log reports.

## Bug Fixes:

- Fixed an issue in the inspections calendar that could cause the site you accessed it from to not be selected by default.
