

Feature Update March 2023

New Features:

1. Now multiple action items can be closed at the same time, with the same note, and with the same closing time.
2. Multiple action items can now be given the same note, assigned to the same individual(s), and/or given the same target date all at the same time.

Enhancements:

- Added date filters to the organization level inspection history.
- Added organization columns to organization level reports to show child organizations.
- Added pagination to most reports.
- Upgraded Google authentication to stay in line with current Google practices.

Bug Fixes:

- Fixed an issue that would cause the inspection history to not load.
- Fixed an issue that would cause an error when trying to load an inspection report.
- Fixed a timing issue that could cause the action items to not show up on inspection reports that were backdated.
- Corrected an error that would cause the site inspection reports to not load.
