

COMPLIANCEGO

MS4 Inspections Software

Why do dozens of
MS4s nationally
use
ComplianceGo?

- Before complianceGO, all stormwater inspections and documentation for MS4s and the private sector were managed in different places. This created confusion, wasted time, and resulted in many instances of non-compliance. Not anymore. complianceGO connects MS4s and private sectors on the same software platform, each having separate control with sharing capabilities.

#1 Stormwater Specific Inspection Software to Track/Manage All MCMs

Stormwater
inspection platform
at its core

IDDE
MS4 Facilities/Good
Housekeeping
Outfalls
Long Term
Construction

Compatible on any device

Supported in real time

Valley Glen, TX

- 1 My Assigned Action Items
- 4 Due Inspections For Operator Sites
- 6 Due Inspections For MS4 Sites
- Due or Late Operator Inspections

Map showing various neighborhoods in Dallas, TX, including Love Field, Highland Park, Perry Heights, Oak Lawn, Uptown, Design District, Victory Park, Westmoreland Heights, West Dallas, Deep Ellum, South Dallas, and others. The map displays several geolocated sites marked with colored pins (blue, yellow, purple, red).

MS4 Compliance Dashboard with geolocated sites

- Multi-User Platform architecture
- Drop Pin feature for adding permitted sites, IDDE, outfalls, and more

Action Log Report.

Site Information:

Company/Division: Valleyglen City, TX

Site Contact: Charles Onboarding

Site/Location Name: Charley's Glen

Site/Location Address: [2010 Pueblo St, Dallas, TX 75212-3817](#)

Site/Location Address: [32.780197, -96.853908](#)

Please see all Open Action Items below.

You may directly close any of the action items below after the corrective actions have been performed by clicking on "Close" for each one.

After opening the action item, please select "add note" by clicking on the orange add note button to:

1. Document why action will not be completed in the prescribed time frame or
2. Document the completion schedule where new BMPs are needed to be installed.

Late Action Items

Silt fence	✓ Close
Reported: 2022-06-06T12:30:01, by Charles Demo	
Priority: DAYS_7	
Location: 39.76642072, -86.1604737	
Location Description: East Exit Point	
Silt fence needs maintenance.	

- Corrective action sign offs from email - no login or account required
- Geolocate Corrective Action Items on reports and maps

#2 Sustainable Tech Solution that is Low Cost

The first paperless, cloud based SWPPP management software approved by EPA

High user volume - active in 40 different states and growing

State/MS4 specific forms

Ongoing enhancements and improvements

Not tied to a consultant
